PROFILE SUMMARY

A 2025 graduate of the Telecommunications Engineering Diploma III program from Politeknik Negeri Malang, interested in pursuing a career as IT Support, Helpdesk, or Network Engineer. Skilled in computer networking, network infrastructure, MikroTik configuration, FTTH installation and troubleshooting, basic network configuration, TCP/IP, LAN/WAN, Internet of Things (IoT), LoRa wireless communication, Python and MicroPython programming, AES encryption, basic data analysis, technical documentation, and the use of Microsoft Office. Known for strong problem-solving skills, analytical thinking, good communication, quick adaptability, thoroughness, good time management, a service-oriented mindset, and the ability to work both independently and as part of a team.

EDUCATION

Diploma III in Telecommunications Engineering | Politeknik Negeri Malang August 2022 - August 2025
3.66/4.00

- **Projects:** LoRa Communication Implementation with AES-ECB and AES-GCM Encryption, OpenCV-based Smile Detection System, ESP8266-based Metal Monitoring System with Firebase and MIT App Inventor, IoT-based Smart Plant Watering System, LTE Network Planning using Atoll Radio Frequency Planning, and Microwave Radio Network Planning.

WORK EXPERIENCE

PT. Telkom Akses – WiTel Malang July 2024 - November 2024
(Help Desk Intern)

- Handled network status checks and ONT reboots via ACS, and OLT reboots using the ZTE application as initial troubleshooting, helping resolve around 85% of initial issues without further escalation.
- Supported the FTTH service activation process through network verification, ONT configuration, and connection testing, ensuring 100% of handled activation processes complied with SOP.
- Performed initial FTTH network troubleshooting by identifying root causes and escalating to technicians when necessary, helping speed up the resolution process by up to 30%.
- Managed helpdesk administration, technician work recaps, and structured service documentation, improving data recording accuracy by up to 98%.

Timoritel November 2025 - June 2026
(Customer Relations Officer)

- Provided customer service and consultation regarding products, spare parts, and mobile phone repair services, achieving a customer satisfaction rate of 90%.
- Managed sales administration, transaction records, and customer data accurately and systematically, with an accuracy rate of up to 95%.
- Coordinated with the technician team on service handling and customer complaints, helping improve service resolution effectiveness by up to 85%.

SKILLS

Hard Skill:

- Network & FTTH Administration: Network installation, configuration, and troubleshooting.
- IoT Development: System development based on ESP32, ESP8266, and Arduino.
- Data Science & Encryption: Data processing, device communication, data analysis, and AES encryption using Python and MicroPython.
- Data Processing: Data processing using Microsoft Excel (Pivot Tables & VLOOKUP).

Soft Skill:

- Problem Solving: Analyzing root causes of technical issues and determining effective solutions quickly.
- Communication Skills: Conveying technical solutions to non-technical users in easy-to-understand language.
- Team Collaboration: Working across teams to ensure smooth operations.
- Time Management: Prioritizing work and handling multiple issue tickets simultaneously.
- Attention to Detail: Thorough in network configuration and device checks to minimize errors.

ADDITIONAL INFORMATION

- **Languages:** Indonesian (Native) and English (Intermediate) / TOEIC certificate with a score of 485
- **Certifications:** CCNA: Introduction to Networks (CISCO), Junior Network Administrator Certification (Digitalent), Access Network Planner (BNSP), Data Science for Internet of Things (Kemnaker)
- **Organizations:** KMK St. Yohanes – Head of External Public Relations Division; EEPROM – Vice Head of Public Relations Division
